### Farming for Profit.

The objects which the farmer should aim at are to produce the greatest amount of wealth with the least expenditure of labor and capital. The objects which the farmer should aim at are to produce the greatest amount of wealth with the least expenditure of labor and capital. The objects which the farmer should aim at are to produce the greatest amount of wealth with the least expenditure of labor and capital.

It is the object of the farmer to produce the greatest amount of wealth with the least expenditure of labor and capital. It is the object of the farmer to produce the greatest amount of wealth with the least expenditure of labor and capital. It is the object of the farmer to produce the greatest amount of wealth with the least expenditure of labor and capital.

Let us consider, then, some of the necessary preliminaries to profitable farming. For the farmer to be successful, he must have a good soil, a good climate, and a good market.

The first of these is the soil. The soil should be fertile, and should be well cultivated. The second is the climate. The climate should be such as to favor the growth of the crops.

The third is the market. The market should be such as to afford a good price for the crops. The farmer should choose his crops so that he can sell them at a good price.

## MOFFATS.

Life Pills and Phenix Bitters.

These Medicines have now been before the public for a period of FIFTEEN YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring health to those suffering from nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the desperate means, and have utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health, without which life itself is but a painful torment. So great, indeed, has their efficacy in restoring health, and in curing those who have appeared scarcely dead than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in restoring health, and in curing those who have appeared scarcely dead than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither Mercury, Arsenic, nor any other poisonous or deleterious ingredients. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science, and have never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and the beneficial action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs, before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly maintains the balance of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be efficacious.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile instead of the staid and acid bile; Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Indigestion, Anxiety, Langor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of the cure.

Costiveness, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

Diarrhoea and Cholera, by removing the sharp acids and morbid humors which are the cause of these complaints, and by promoting the lubrication of the mucous membrane.

Fever of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all morbid humors.

Rheumatism, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all morbid humors.

Gout, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all morbid humors.
